

Enterprise Research Subscription Service

Research Services for Enterprise-wide access.

A Unique Research Subscription Service

The ServiceXRG Enterprise Research Subscription Service provides you and your company with the data you need, when you need it, backed by the expertise to help you apply it to your business. Unlike typical research subscriptions, ServiceXRG provides you with the flexibility to receive comprehensive published research reports, custom data cuts and access to ongoing inquiry support. As a research subscriber you will have online access to all our reports and articles. In addition, our search function will help you find the research publications that cover the topics you are interested in. We also provide online access to presentations we have made on a variety of support and service topics. ServiceXRG provides you with the ability to tap into the data you need, the way you need it on demand. The subscription is a 12 month program that provides your company with access to the following:

- Three designated contacts for the Data-on-Demand inquiry support.
- Three printed copies of all published reports
- Unlimited number of accounts to servicexrg.com for online access to reports and presentations.
- Rights to unlimited electronic distribution of all published research within the enterprise.

The fee for this program is \$15,000 for a 12 month subscription. Each additional contact is \$2,500 which includes Data-on-Demand inquiry support and a printed copy of all published research.

Access to a World of Information

ServiceXRG conducts on-going research of carefully selected target audiences to assure a representative and balanced perspective of the services marketplace. ServiceXRG interviews service executives from leading information technology vendors to establish industry best practices and performance benchmarks. ServiceXRG also studies the expectations and perceptions of your customers that rely on you for service and support. By conducting research of these two important communities ServiceXRG can provide a 360° view of the service marketplace.

Flexible Data Access

ServiceXRG's unique Data-on-Demand capability provides flexible access to an extensive repository of service industry data. Let ServiceXRG know what data you are looking for, how you want it segmented and ServiceXRG will provide you with the results from the ServiceXRG database. Data segmentation provides in depth access to information based on company characteristics.

Research Topics

ServiceXRG provides extensive coverage of critical areas of the service and support industry. ServiceXRG offers depth and breadth of industry coverage and continues to monitor industry trends and developments to assure that the topics covered are aligned with the needs of our clients.
